
INFORMATION

in the mass seems like a dull proposition but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use of it however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much.

In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

THE NEWPORT DIRECTORY

FOR THE YEAR ENDING JULY, 1936

1935

Containing

Alphabetical Section (page 161). Gives names, occupations and addresses of all men and women eighteen years old or over and all business houses. Dates of deaths during the previous year are given, and where possible, the addresses of people who have moved to other cities. The names of partners in firms are given after the name of the firm. Wives' names are given, following that of the husband. Telephone numbers are also given for places of business and householders. Much other information is contained in this department that cannot be found elsewhere.

Business Directory (page 417). All business houses, individuals in business for themselves, and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

Street House and Home Owners Directory (page 345). All business houses, individuals in business, and householders, listed in numerical order upon their respective streets. The streets are arranged in alphabetical order with descriptions. Places of Business are indicated by bold face street numbers. A feature of great value and convenience.

A VALUABLE FEATURE:

HOMES OWNED BY OCCUPANTS INDICATED BY SYMBOL ©

(Note: this information is as given to our canvassers, and is not guaranteed by us. It should be of value as an indication, but not taken as legal proof of title.)

Advertising Department (page 65). Where more information than is possible to give under the headings is placed on file for buyer's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

Map (opposite title page). The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily, showing the location of Points of Interest and Summer Residences with names of owners.

Miscellaneous Information (page 12). Organization of City Departments, giving officers—State officers and departments—U. S. officers and departments—Courts holding sessions in the city, with terms and officers—Population tables, etc.

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy*.

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book*.

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected*.

When one speaks of Newport today, it is usually in connection with the doings of its wealthy summer residents, or activities at the great naval station which Uncle Sam has established along its waterfront. Thousands of persons, from all sections of the country, view the magnificent estates of "The 400" yearly and the immense establishment where the nation's naval officers and enlisted men are trained in the arts of war and engines of destruction are fashioned content to see the things that are and thinking little of the ancient landmarks which made of Newport a centre of industry and culture two hundred years ago.

It was in 1639, that William Coddington, man of affairs, here established, with a handful of followers, seceders from Portsmouth, a "body politic" based upon religious freedom and tolerance. The church which John Clarke, preacher and physician, founded believed by some to be the first Baptist church in America, still exists, and his grave has become almost a religious shrine. Not far away, on Touro Street, is the oldest Jewish synagogue in the country, built in 1763 and long acclaimed as an architectural masterpiece in its interior.

The location of the little settlement at the mouth of Narragansett Bay made it ideal for commerce, in which it was a close rival of both Boston and New York. Ships were built in its harbor and sailed away on trading voyages, carrying in their holds products of the little shops and factories established in the town, including those of several distilleries. For many years these activities continued while Providence was still referred to as one of the "out plantations" of the colony.

When French and British privateers began preying upon the commerce of the seas, Newport ship owners and sailors were not long in following suit. And so successful were they in their daring endeavors that they were called "pirates" by the London government. Many were the rich cargoes brought into the harbor of Newport by these freebooters of the seas and many were the fortunes soon established in this business. The notorious Captain Kidd is said to have had friends in Newport and to have visited Rhode Island.

The slave trade also occupied the attention of Newport merchants for quite a period and for several years Newport was known as a slave trading centre.

As the town increased in size and richness, it also extended its cultural advantages. Men of learning here found an atmosphere to their liking and enjoyed the hospitality offered and, until the British occupied the town for three years during the Revolution, Newport was the gathering place of savants of both the old and new world.

Newport was incorporated as a city on June 1, 1784, but the charter was repealed three years later. Nearly seventy years later, in 1853, it was again chartered.

The first spot sought by most visitors is the famous Ocean Drive, with its uninterrupted view of the forty to fifty miles of rugged coast line extending from Sakonnet Point on the east to Point Judith on the west, unequalled along the Atlantic Coast.

The Cliff Walk, starting at Newport Beach, skirts the cliffs along the ocean and ends at Spouting Rock Beach, or as it is more often called, Bailey's Beach. This beach is undoubtedly the most exclusive in America, and is the aquatic playground of Newport's summer colonists.

Few cities in America, regardless of size, have the diversified recreational facilities to offer to its guests as are to be found in Newport, often referred to as "The Capital of Vacationland". Two outstanding programs are offered the vacationist at Newport—one for the active sport lover—the other for the sport follower or fan.

Several beaches, unsurpassed, afford opportunity for safe surf bathing and ocean swimming, while in the Bay still water invites the swimmer who prefers something less strenuous than the restless Atlantic.

A popular spot sought by many visitors is Easton's Beach, but commonly known as "Newport Beach", where one may spend the day enjoying the surf bathing, delightful in temperature, with assurance of safety from erratic currents. For those who do not care for surf bathing, modern Roman pools are available.

For the lovers of outdoor sports there are the Newport Country Club, the Wampanoag Golf Club and Sachuest Golf Course.

Across the Harbor, on Goat Island, is the U. S. Torpedo Station where the torpedoes are made. At the north end of the city on Coasters Harbor Island is the Naval War College and the U. S. Naval Training Station.

One could travel through its quaint, narrow streets for several days, viewing objects of great interest on every hand. Among the points of interest, in addition to the foregoing, are: The Old State House, the Governor Nichols or Hunter House, Washington Street, the Vernon House, Mary and Clark Streets, Jewish Synagogue, the Jewish Cemetery, the Old Market House (home of the Chamber of Commerce), Redwood Library, Touro Park and the Old Stone Mill, Trinity Church, the Friends' Meeting House, Newport Artillery Armory, the Art Association.

A charter was granted to this company in
1741, by Geo II, King of Great Britain and
Ireland. It is therefore the oldest active mili-
tary organization in the United States. The
Company has always held a high rank, and
there is scarcely a family of any prominence
in this old town but has been at some time
represented in the ranks of this ancient and
honorable organization

(See Business Directory)

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledge himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a

business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

NEWPORT DIRECTORY

REFERENCE DEPARTMENT

Where more information than is possible to give under the classified listings is placed on file for buyers reference. The value of this department is inestimable. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information.

A Public Service Publication

Few lines of Business have such a varied clientele as has the City Directory. It serves high and low, rich and poor, with equal impartiality and with profit to all.

It answers the questions What? and Who? which arise in daily Business and fills a position occupied by no other publication under the sun. It is often used from its issue until it falls to pieces and seldom will you find one entirely discarded while its leaves cling together. A publication which is used so universally and whose life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

NATIONAL ADVERTISERS

Are coming more and more to realize that newspaper or magazine publicity brings better returns when coupled up with an advertisement for the local agent in the City Directory. Put "See the City Directory for our local agent" on all your advertising and see to it that he is listed under all the classifications of your line

LOCAL ADVERTISERS

Will improve their sales of nationally advertised products if they can induce their supply house to advertise in the above manner

How to Make This Book Serve You!

The City Directory may be used to great advantage in supplementing and rounding out your newspaper publicity. Put—"We are listed in the directory" in your copy. Tie up all your advertising to the directory with the above phrase. Then see to it that you are properly represented under all the business listings applicable to your business. The phrase will stick long after the newspaper has been mislaid and people will get in the habit of looking for your name when ready to purchase goods which you carry. Thus will the interest aroused by your newspaper display be extended and preserved for your future benefit.

Too Late for This Issue?

Then arrange NOW to have your name properly listed and your business classified and cross indexed in the next edition of the Newport Directory.

The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

Put "We are listed in the Directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly listed under all headings in the directory that describe its product is wise.

Copyright, 1935, Sampson & Murdock Co., Boston, Mass.

Wife's Name—Appears in parentheses following husband's name when obtainable.

Removals—Against names showing removals from the city, the post office is given; if into another state, both the post office and state are given.

Deaths—The date of death of citizens whose names appeared in the Directory, dying since the last issue, is recorded against the name in the present book.

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy*.

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book*.

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected*.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for THREE HUNDRED and FIVE days, therefore—

$$1000 \times 3\frac{1}{2} \times 305 = 1,067,500$$

COMPILING DEPARTMENT

The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Our experience of over eighty-five years—our reputation for accuracy, our large force of experienced help and our complete equipment for the work, all guarantee the best in directory compilation.

ADVERTISING DEPARTMENT

Put—"We are listed in the Directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly registered in all branches of its industry is wise. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

CLEERCOAL

I M P O R T E D

the modern anthracite

The more *heat units* you get in coal,
the less ash you shovel out of the
heater.

Cleercoal is better than 95 per cent.
PURE. It actually leaves less than
a barrel of ash to the ton.

A single ton will convince you that
Cleercoal produces 20 to 30 per cent.
more heat per shovelful than any other
anthracite.

NEWPORT STREET AND HOUSE DIRECTORY

Copyright, 1935, Sampson & Murdock Co., Boston, Mass.

A list of householders and places of business arranged in numerical order upon their respective streets.

The **Streets** are arranged in **alphabetical order**. The location of **Intersecting Streets** is clearly shown at the actual numbers where they intersect.

A HOME OWNERS AND TENANTS DIRECTORY—a valuable feature showing which houses are owned by the occupants. The symbol, © following the name of a householder indicates that the house is owned by the person listed, or by some member of the family.

This information is as received by the canvasser. The publisher does not and cannot guarantee its correctness.

Abbreviations are listed at the beginning of Alphabetical Section—Page 162.

Places of Business are indicated by bold face street numbers and business being given. Numbers following names indicate floors; preceding names, rooms or suites.

*Indicates Streets accepted; ** indicate part of street accepted.

Bricks Without Straw

In ancient times, we are told, the Israelites were forced to do their work without the proper materials. They did it—after a fashion—but at an enormous cost in time and labor. Labor was cheap in those days, however, and their task masters had the power to insist upon the full quota being given in spite of limitations.

Now the labor market is high, yet, in many cases history repeats itself. We still often see business trying to get along without the proper tools or with antiquated equipment.

You *can* do business without the telephone; it is possible to get along without a typewriter; you may use a quill pen for your correspondence if you so desire; it is your privilege to be without insurance, or the latest directory. If you wish you may still use a mailing list that was old when grandfather was a boy.

If the results are not entirely satisfactory, it is up to you.

Some firms prate wisely of business efficiency and then lose time and money sending to wrong addresses culled from an out-of-date directory. Rather than spend the few dollars necessary to insure themselves being properly listed under all the headings applicable to their business, they run the risk of letting their competitor get their trade. They save the first cost and waste postage stamps by the gross.

Would you improve on old methods? Then phone or write at once for particulars to

Your Business on Record All Over America

**Hundreds of Directory Libraries Can Give Your
Advertisement National Circulation**

Thousands of your potential customers are visiting the City Directory Libraries of the United States and Canada every month seeking sources of supply and other information. These library locations are advertised and publicized consistently and continually. These libraries are maintained by the Association of North American Directory Publishers through the courtesy of the members who keep them supplied with City Directories as part of their service to the public. Is your product or service properly registered in these

libraries so that those looking may readily obtain the information desired? This library system is a sound economic feature that brings your product or service within the reach of millions at a cost to you that is surprisingly low in comparison with proven results. A folder, descriptive of this huge system of City Directory Libraries, together with a privilege card entitling you to the benefits of free usage, is yours for the asking, on your business letterhead. Apply either to your local Directory Publisher or to

Concerns Who are in Business
to Stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern city directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

Directories and Business Men

This Business Branch has a collection of approximately 2,400 current directories on which it spends \$2,500 a year. Forty per cent of the use of the Business Branch is of the directory collection specifically. Is this sufficient justification, in any but a superficial way, for this expenditure in money as well as in the proportionate share of overhead?

Of What Use Are Directories?

What particular use are these directories? Why should Mr. Jones ever need the Seattle directory or Mr. Smith the directory for Kansas City? Why are so many city directories used to answer the calls that come over the telephone? The obvious use, giving the address of a certain person in a particular city is only a small part of the whole. Besides this, the manufacturer, using direct mail advertising, will wish to reach all the dentists or plumbers or steamfitters in cities of a certain size or section of the country. Is it worth while to enable him to increase his market in this way?

His friend, who wishes to reach only retail jewelers may use the same directories or any entirely different set. An insurance company, cannot decide whether a street address is meant for Grove or Grand. The city directory lists only the latter, so the papers can be drawn up correctly and without question. Mr Jones dies without a will; a sister, Mrs Hague, is supposed to live in Pittsburgh. Again the directory is called into play.

In order to bring suit, another lawyer needs to know the names of the partners in Jones & Smith of Fresno. The city directory can furnish this. Data on the city, the names of the various city, county, state and federal officials, all are there, as well as a mass of other information.

The trade directories are used from another angle. Here the manufacturer of a product known only under its trade name may be discovered; or the address of a manufacturer whose firm

name only is known. This has helped many times when replacement of some part was necessary and the information about the manufacturer limited.

The research student or statistician can solve many of his problems through this collection. He may discover, through directories, the subdivisions and ramifications of any industry; and in what sections of the country it is most fully developed. The purchasing agent who wishes to consider other sources of supply will find help; as will the sales manager looking for more customers in a given line.

So much for the directory collection and its obvious uses. Another question has been raised, however, that of the fundamental use such a collection is to the citizens.

Its fundamental use is as a convenience and time saver. All of the questions asked at the Business Branch are of immediate importance in connection with some activity of the inquirer. A question may be asked and answered here in a short time. Without the directory collection at the Branch the information would take time, effort, and probably expense, to procure.

At a proportionately small cost to the taxpayer, the answers to countless questions of moment in his business life are made available to him, his clients or competitors. In many cases the directory collection will furnish information for the better understanding and development of his business.

Just what the value of this collection is to the development of the world-at-large, is problematical. According to one authority, the prime purpose of a library is "to place the right books in the proper hands; to get more joyful and wise thoughts into the minds of its owners." This last the directory collection may not do directly. Instead through saving the inquirer's time and effort by answering promptly a question relating to his day's progress, it allows him the free mind and time needed for possible indulgence in "joyful and wise thoughts."
